SAN FRANCISCO, Aug. 22.—All
efforts of parties and organizations not
directly interested to end the labor tie-
up, have apparently been suspended,
last night the retailers met and dis-
cussed the situation, but took no definite
action. This result was rather dis-
appointing to some of the labor leaders
and others, who hoped that some de-
cisive plan would be adopted by the re-
tailers.

Strike Director's Reply.

The significant reply of the Strike
Director Furuseth to the retailers' com-
mittee, "We are ready to meet a
committee of the Employers' Associa-
tion, or any committee authorized by
the Employers' Association," is taken
to mean that the labor leaders have tried
of the overtures and propositions
put forward by well disposed people
without authority from the Employers'
Association. But in spite of this, the
strike managers continue to grant cour-
teous audience to all who request a
meeting and listen to all plans of con-
ciliation that are offered.

Carrying On the Battle.

And while these semi-negotiations are
in progress the leaders on both sides
are carrying on the battle with renewed
energy and apparently with greater de-
termination than ever before. The em-
ployers are hiring new men every day,
taking nearly every one whose services
are offered and making strenuous ex-
ertions to restore the commerce of the
city to its normal state of activity. On
part of the Unionists there is evidently
an equal determination and a strong ef-
fort to block the moves of the Employers'
and to continue the business
blockade until the principle for which
they are contending is recognized.

Say Strike Is Broken.

Today the steamship managers emphati-
cally state that the strike is broken, at
least as far as the transportation busi-
ness is concerned. They declare that the
places of the striking sailors, firemen and
longshoremen have been filled with non-
union men and that the men and crews
are performing their duties satisfac-
torily.

Representatives of employers in the
ocean carrying trade said this morning
that men were plentiful and that the new
force is not made up entirely of unskilled
workmen. Many of the new employees
it is said, have had experience, and these
are rapidly breaking in the others.

The steamship men say there will be no
compromise with the unions. They de-
clare that in future no agreement will be
made with any labor organization, as the
agreements formerly existing were, with-
out reason, abrogated by the unions.

Steamers Will Leave Port.

Directors of the City Front Federation
say the steamers that leave this port go
out with only part cargoes.

FINE IMPROVEMENT ON FALON STREET.

The work of making a fine thorough-
fare out of Fallon street is progressing
in a very satisfactory manner.

Between Sixth and Eighth streets a
perfect roadway has been laid out. Be-
tween Tenth and Eleventh streets, the
street has been filled to grade with
street sweeping. This kind of filling is
in progress between Eleventh and
Twelfth street and will soon be com-
pleted.

The greatest progress is being made
between Eighth and Tenth streets.
From Eighth up to Ninth street the
thoroughfare is graded and curbed. E.
L. Harbert has erected a beautiful cot-
tage on the east side of the street and a
short distance south of Ninth street if
extended eastwardly. Mr. Harbert
has signed with Hutchinson & Ran-
some in private contract, to macadam-
ize the street in front of his property.

John Conant, the architect, owns the
next lot on the north on which he in-

tends shortly to build. Conant's lot is
on the southeast corner of Fallon and
Ninth streets if the latter were extended
eastwardly through the Bacon estate.

Mr. Conant has also signed for the mac-
adamizing of the street in front of his
property. The only property owners in
the block between Eighth and Ninth
streets who have not signed are Lady
Yarde-Buller and James Smilie. Lady
Buller's attorney says that her interests
favor the paving. Smilie is absent from
town and it is said that he also favors
the project.

The Bacon estate has already contract-
ed for the improvement of Fallon street
between Ninth and Tenth street, as pro-
posed, with the Phoenix Paving Com-
pany. This contract covers a distance of
one-half mile. The gutter excavation has
been made and the broken rock which is to
form the drain is on the ground. The
roadway is to have a depth of six inches
of macadam. This will be one of the best
paved streets in the city and will be popu-
lar when it can be reached through the
extension of Ninth street eastwardly
from Oak street.

Assistant Secretary Taylor
Makes a Ruling Against
the Consul.

WASHINGTON, Aug. 22.—A bat-
tle occurred here at 1:30 o'clock to-
day between Sheriff North's posse and
a mob of 400 men, who were seeking to
lynch Jim Brown, the negro rapist from
Springview. Walter and Arthur
Blankenship were wounded fatally
and a boy named Hanby seriously in-
jured before the mob was dispersed.
Brown was tried at a special term of
court this morning and sentenced to
hang September 20. The trial lasted
two hours and the jury was out
eleven minutes.

When it became known that the
court had directed the Sheriff to take
the prisoner back to Birmingham for
safe keeping a mob surrounded the
court house where Brown was being
guarded by Sheriff North and eight
deputies.

The mob demanded the prisoner and
the Sheriff informed them that he
would shoot the first man that put his
foot on the court house steps. A few
minutes later a member of the mob
dashed forward, firing a revolver.

A general fusillade followed, over 100
shots being fired. The Sheriff's force
fired through the windows and doors
and the mob retreated, firing back as
it went.

Walter Blankenship was shot
through the head with a Winchester
ball. Arthur Blankenship was shot in
the head and shoulder with buck-
shot. Both will die.

OKLAHOMA CITY, O. T., Aug. 22.—
There is to be determined right
for the possession of Will Flavors,
the negro charged with the murder of
Miss Gazzelle Wilde at Pierce City, Mo.,
where the three apparently innocent
men were lynched for the crime. Ha-
beas corpus proceedings were begun
today in the District Court for the re-
lease of Flavors, a number of prominent
Oklahoma negroes having raised a
fund and employed an attorney to
defend him. Officer Saunders of
Pierce City, who is here to secure
Flavors, and who declares that he is
the real culprit, has employed attorneys
to represent the State of Missouri.
Governor Jenkins will be im-
pounded not to issue a requisition for
Flavors until after all danger of lynching
has passed.

SCHLEY'S TRIAL.

WASHINGTON, Aug. 22.—Acting Sec-
retary of the Navy Hackett at 11 o'clock
yesterday sent a messenger to Ad-
miral Schley's counsel requesting their
presence at the Navy Department.
Messrs. Wilson and Rayner reached the
Department at 2 o'clock this afternoon.
At the conclusion of their conference with
Acting Secretary Hackett they stated that
their talk had nothing to do with the
membership of the Court of Inquiry, but
was on a technical question which was of
interest only to themselves.

Admiral Schley's counsel have framed a
reply to Mr. Hackett's communication of
yesterday expressing the Department's
unwillingness to further question Adm.
Hornblower's qualifications as a member
of the Court of Inquiry.

VIRGINIA REPUBLICANS IN SESSION.

NO SUFFRAGE FOR THE UN-
WORTHY CITIZENS OF
THE STATE.

Demand a Free Ballot and a Fair
Count at the Elec-
tion.

ROANOKE, Va., Aug. 22.—When the
Republican State Convention re-
assembled this morning, ex-Congressman
Thorpe, chairman of the Resolutions
Committee, presented the platform,
which was adopted by acclamation
without debate.

Virginia Platform.

The platform endorses and announces
adhesion to the principles of the Na-
tional Republican Party, as enunciated
in the Philadelphia platform; endorses
the McKinley administration and gives
its unqualified assent to the Repub-
lican doctrine.

It asserts its willingness to trust the
decision of the people on all political issues.
It protests against the proposition to confer
the right of suffrage on unworthy persons
on account of the merits or the achieve-
ments of their ancestors as tending to
create a privileged class and discrimina-
tion against others equally worthy.

Right of Suffrage.

It favors the right of suffrage being
left as fixed by the present constitution
of Virginia, with such laws and
guarantees as will secure to every
qualified voter a free ballot and fair
count. It arraigns the Democratic
party of Virginia for the "wilful,
deliberate, baseless and fraudulent
plots to control, prevent and punish such
certain illegal combinations of
capital." It protests against the scheme
to promulgate the new constitution
without submitting it to the people.

Nominee for Governor.

After the platform had been disposed of,
Mr. Turley, the defeated candidate
for Governor, made a speech endorsing
the nomination of last night. J. Hampton
Hodge, the nominee for Governor, was called for and
responded with a speech in which he
scored his Democratic opponent and the
Democratic party. He was enthusiastically
cheered.

At 11:30 o'clock the convention ad-
journed sine die.

Non-Union Men

The arrival from the East of thirty-two non-union men for work in The Star Tribune Works was attended by great excitement but no disorder. When the train reached the Union Station it was met by Police Captain John E. Cramer and a squad of twenty-five men who surrounded them to the mill. Several hundred strikers followed and attempted to talk to the men, but the police kept the strikers on the outside of the pavement. When the works were reached the non-union men fled through the gates, which were quickly closed, leaving the strikers on the outside. Not a hiss or a jeer was heard. The police requested the strikers to leave and they at once dispersed. The police were then relieved and only the regular watchmen were left on guard. All is quiet and no trouble is apprehended.

Men at Works.

Previous to the arrival of the Eastern men fifteen men entered the works. They were not molested.

The company had a number of men in the works since Monday, and they now have about 100 men in the place. Two rollers, one from Homestead and another from the South Side, are in the plant ready to go to work. Active preparations are going on for an immediate resumption and the Steel officials claim that in less than a week the entire plant will be in operation.

GLASGOW, Aug. 22.—Cephas Brainerd of New York presided today at the session of the International Law Association. A motion was adopted urging that the United States and Great Britain, who are not parties to The Hague convention, dealing with reciprocal rights, regarding pauper litigants, should accede thereto, and urging the formation of a bureau where the poor could obtain counsel free of charge. It was contended that such a bureau would put a stop to improper litigation.

FRATERNAL NEWS OF THE WEEK.

Some Interesting Events are Recorded in the Local Lodgerooms.

If staying until midnight is an evidence of interest in the work of the order, then those present at the meeting of Piedmont Lodge, No. 172, K. of P., last Monday night are earnest Pythians.

In spite of the counter attraction at Brooklyn Lodge, the visit of the grand chanceller, the castle hall of No. 172 was filled to its seating capacity.

After the esquire rank had been conferred upon one page, the officers and team of Oakland Lodge, No. 103, K. of P. took possession of the floor and conferred the knight rank upon two esquires in their usual efficient manner.

All present expressed themselves well-paid, and truly it must be acknowledged that the order may well be proud of the team.

Captain Bernstein has his men well in hand—and makes a leader, of whom there are few to be found.

Several new applications were read.

On Monday night next, three strangers will be initiated. Almost all the lodges of the county were represented, the local lodges being in full force.

OAKLAND LODGE, NO. 103.

Every seat in the spacious Castle hall of Oakland Lodge, No. 103, K. of P. was occupied at its last assembly Thursday evening, August the 15th, at which time, Pages Bulin, Pine and Wood were charged in the armorial rank of esquire. In the scholastic and instructive manner for which this lodge has earned a widespread reputation.

In the oral portion of their instructive ceremony, Superior Representative, Vice-Samuel and Past-Chancellor, Journal of Live Oak Lodge, No. 17, Brothers Gans, Sam, Samuels, Condon and Gaylord of Oakland, No. 103 distinguished themselves.

Following the conferring of the rank, the remainder of the evening was devoted to a feast of reason and a flow of wit and harmony.

Extraordinary interest is being manifested by Captain Bernstein and the team in the manner in which the ceremonies of the conferring of the knight rank will be conducted at this evening's convention.

It is assured that all members of the fraternity who may avail themselves of the opportunity to be present will be well entertained.

ROYAL ARCANUM.

Sierra Council, No. 1642, Royal Arcanum, expects to have a big meeting next Monday evening, the occasion being the official visit of the grand officers of the State of California.

Since the formation of a grand council for this State, the Royal Arcanum has gained in membership very rapidly. For many years all instructions were issued direct from the supreme council at Boston. On account of the great intervening distance, this Coast very seldom saw one of the supreme officers. Since the Royal Arcanum has become so firmly established in California, there have been several visits from the supreme body. Sierra council was organized in Oakland in October, 1899, and has been highly honored by having its members selected for offices in the grand council. Sitting Past Grand Regent Spencer and Chairman of Committee on Laws, Dr. W. F. Lewis, are both members of Sierra Council.

On next Monday evening, it is expected that the hundred members of the Royal Arcanum who reside in Oakland—but who still retain their membership in other councils—will turn out en masse with the members of Sierra Council and give the grand officers a hearty welcome. As this is to be an open meeting it will give the members a chance to bring their gentleman friends along and learn something of the workings of what is considered one of the leading fraternal orders of the United States. Organized in 1877 with only a few members it has grown till to-day it numbers about 25,000 members, and has an emergency fund of \$1,500,000 invested in United States Government bonds.

Alameda Council has notified Sierra Council that they will attend Monday night's meeting in body. Delegations will be present from all of the San Francisco councils and it is safe to assume that Foresters' Hall at Thirteenth and Clay streets will be filled to overflowing.

As the members gathered around the camp fire for the closing ceremony, G. N. Eaton presented to Past Guardian Neighbors V. A. Derrick and L. Bolte beautiful past guardian pins, in token of the love and respect that the neighbors bore them. They presented to Neighbor Turnbull, who had served the Circle so faithfully as musician during the past term, a gold Women of Woodcraft pin.

Harbor Lodge No. 253, I. O. O. F. held a regular weekly meeting last evening.

This innovation of opening the lodges sharp in order to get them open with the social chaps in the smoking room is meeting the approval of all members.

On account of important business the first degree was not exemplified, but it will take place at the next session, Wednesday, August 28th.

KNIGHTS OF THE MACCABEES.

Knights of the MacCabbies, No. 17, K. O. T. M., had a large sick list for the last six or eight months, having had as many as fourteen on the sick roll at one time, and last term the amount paid out in sick benefits amounted to almost \$1,200.

It will be hoped that there will soon be a change and that many of the sick brothers may be restored to their usual health.

Next Thursday evening Dr. Howard W. French and his brilliant degree team will confer the Oriental degree of humility on a class of pilgrims at A. O. U. W. hall, 1169 Broadway.

ALBION LODGE.

The Albion Cycle Club had a very enjoyable run to Cull Canyon, Hayward, on Sunday, August 18. The start was made from the club rooms, Blaik & Moffitt building, corner Eighth and Broadway, at 9:30 A. M. The participants were J. W. Barlan, J. Lancaster, G. Discon, W. Hambleton, F. Hambleton, J. D. Arkeson, J. Orbell, C. Johnson, K. M. Pomeroy, R. Peddie and T. Booth.

J. Barlow, the president of Albion Lodge, failed to keep his word and was conspicuous by his absence, which caused keen disappointment, although tempered by the knowledge that the rule of the club compels him to pay the expenses of the next run for his non-attendance.

The club being quite young and some of the members not being accustomed to such a long run and swift pace, it was found necessary to stop frequently to allow time to recuperate and take a long breath.

Notwithstanding these frequent stoppages, the party arrived at Hayward's in the remarkable time of two hours and twenty minutes, in the best of spirits.

A stop was made at the Central Hotel, Haywards, where, under the superintendence of the genial host and hostess, a bountiful repast was spread.

Numerous minor accidents occurred

on the return trip and two members of the party had to take the car on account of a flat tire.

The members finally arrived in Oakland all safe, well satisfied with their day's outing and eagerly looking forward to their next run, at which there will undoubtedly be a better attendance.

YOUNG MEN'S INSTITUTE.

The Grand Council of the Young Men's Institute resumed its session yesterday morning in San Francisco.

The jurisdiction of the Pacific Coast will recommend to the Supreme Council that sessions be triennial instead of biennial conventions hereafter.

The Grand Council will finish its deliberations this evening. Supreme President F. K. Kierce delivered the eulogy on the late United States Senator Stephen M. White at the morning session today. Most Rev. Archbishop Riordan will address the Grand Council this afternoon just before the annual election of officers takes place. PRISON OPIUM RINGS.

Warden Aguirre of San Quentin is trying to break up the opium ring that has existed in the penitentiary almost continuously since the days of its foundation, and as his methods are very radical when he has any particular object in view, he is likely to make considerable inroads into what is apparently a well established business. The occasion for this special effort is the recent discovery of a large quantity of morphine in the possession of a desperate criminal, and an investigation developed the fact that a number of other prisoners also had considerable holdings of drugs, the warden has set to work to unearth and break up the opium combination.

The importation of opium into our State penitentiary has been a standing trouble that so far the authorities have coped with it in vain. With the hope of frightening off those who are in the habit of conveying drugs to the prisoners, the Legislature a couple of years ago passed a statute making it a penal offense to either smuggle opium into the prison or to conceal it in the grounds adjacent thereto. The discovery of caches of drugs in the prison quarries and along the roads where convicts were employed showed the necessity for an enactment of this kind, but it seems to have done little good, judging by the conditions with which Warden Aguirre is now contending.

The fact that those prisoners dedicated to the drug habit will pay any price in order to secure potions is the chief trouble to be met, for with verbal guards willing to add to their pay, and the opportunities existing on visiting days and other occasions when convicts can be directly communicated with, it has proved impossible to break up the influences thus put to work. Strange as it may seem, too, the State penitentiaries are responsible for a good deal of the opium habit, for many a victim thereof took his first lessons within prison walls. Solitary confinement, a craving for stimulants, a desire to entertain the mind with something more pleasant than the stern surroundings, the evil counsels of those hardened to vice—these have been the temptations placed in the way of those who have fallen. The evil is a serious one and Warden Aguirre is well justified in adopting heroic measures to stamp it out.

San Mateo county Supervisors have decreed that automobiles cannot travel faster than fifteen miles an hour within their bailiwick. In view of the condition of some of the roads down that way there is little occasion to pass such an ordinance.

Marchand, a famous French General, is to be placed in charge of the troops in China. He belongs to the same family as our local restaurateur, a better man could not be selected from a charge standpoint.

Returning Arctic steamers report another rich strike up north. It seems impossible to keep any place exempt from strikes nowadays.

Shoemakers are forming a trust. Spades will be trumps in the financial game until the deal goes through.

A magnetic observatory is to be built at Suga. It will naturally be an attractive building.

SLANDERING CALIFORNIA.

California continues to occasionally get a slap in the face as a result of the foolish plague scare that obtained here a few months ago. The latest slander of the kind hails from Milwaukee, where, in order to meet the demands of the silly season, some fool recently sounded the alarm that the plague was on its way from the West and that Wisconsin should take the bull by the horns by adopting protective measures before the disease put in an appearance. As if this nonsense was not enough, two Milwaukee doctors said to be of prominence, have jumped to the support of the sensational theorist, one of them expressing himself in print as follows: “I fear we will have to tackle the plague here. It is noticeable that the bubonic plague, like cholera, when it once starts on its rounds, usually beats the globe. Already the scourge is in California and New York, and I am convinced that it will eventually reach first Chicago, where conditions are ripe for its reception, and then the south side of Milwaukee.”

All of which comes under the heading of “tommyrot.” In the first place we never had any plague in California, and secondly the few instances of illness that caused all the rumpus here long since died out and the subject has been shelved for months. To make a statement, therefore, that the scourge is now in the State is about as far removed from the facts as anything can possibly be, and about the only conclusion that can be drawn is that the Milwaukeeans have got hold of a California paper issued several months ago and have become so interested in a plague article that they forgot to notice the date.

Then, again, it is untrue that a plague when once well started sweeps around the world, for medical advancement and modern sanitary methods put up the barriers long ago and over two centuries have passed since there was a world-wide epidemic. Even when the cholera obtained such a foothold on this continent thirty years ago it did not succeed in crossing the Rockies, nor even in sweeping through the entire Atlantic seaboard States, for its ravages were almost confined to a few main cities. As for the bubonic plague spreading over the country, such a condition is absolutely out of the question, for time and again experts have shown that our climate is actually repugnant to its contagious influences. The good people of Milwaukee need therefore have no fears in consequence of the alarm that has been spread in their midst, and in any event they need not expect such troubles from California, for the only place the plague existed here was in the mind of Dr. Kinyoun, our erstwhile quarantine officer.

The importation of opium into our State penitentiary has been a standing trouble that so far the authorities have coped with it in vain. With the hope of frightening off those who are in the habit of conveying drugs to the prisoners, the Legislature a couple of years ago passed a statute making it a penal offense to either smuggle opium into the prison or to conceal it in the grounds adjacent thereto. The discovery of caches of drugs in the prison quarries and along the roads where convicts were employed showed the necessity for an enactment of this kind, but it seems to have done little good, judging by the conditions with which Warden Aguirre is now contending.

Chicago reports no change in the strike situation. There won’t be much anywhere if the lockouts continue much longer.

RINGLINGS' GREAT CIRCUS COMING.

It is Said to be the Largest Show That Has Ever Come to the Coast.

The great Ringling Circus will play in Oakland next Saturday afternoon and evening. There will be a grand parade. The show is the best that has ever come to the Coast.

Concerning the circus, the Boston Herald says:

“Much has been written and said of the necessary puffing that is needed to create interest in a circus and all upon the line of the street parade. The historic small boy who is supposed to watch the entrance of the circus to town was not needed to fill the great tent as it was filled last evening. The show itself, and who is there that does not love a circus, was the finest that the town has seen. The completeness of the performance, its smoothness in operation and the novelty of the innumerable acts will be subjects that will be treated in a more detailed manner at a later date.

“The city beneath the canvas opened its doors to the many thousands at 7 o’clock last evening, and the appearance was that of a most prosperous business during the stay of this educational aggregation in this city. The most peculiar thing, and that which is not made prominent, through modesty, probably, is the great variety and absolute perfection in every respect of the menagerie. This is not to be considered as inuring that the circus itself is inferior to the display of the cages.

“While the numerous people were enjoying a treat in studying the various types of animals, it was marked by those who were present that the so-called and almost historic ‘bum band’ was missing. With the Ringling Bros. show is a band of musicians whose concert program compares favorably with many an orchestra. So much for the introduction to what is to follow in the ‘big top.’ ”

“Knowing so much about a Boston audience, and what in Boston suits any large gathering of people, the Ringlings have retained the favorite features of their last year’s show. These are not all. In addition they have the latest importations from the various European arenas. The whole effect of the circus leaves upon ones mind an impression that is very lasting and beneficial, in that it not only demonstrates that degeneracy is a fallacy.

“In the rings the equestrian acts afford an opportunity for the display of absolute perfection of bareback riding. Upon the flying trapeze there were performers whose appearance almost started. The novelty, so far as such wire is concerned, is one of the most pronounced ideas which the Ringlings have introduced into the maze of marvelous feats.

“The slow chaps, who does not live now, but has lived in the past, remarked recently that the circus clown was obsolete. He, in the possession of a long memory, recalled the numberless clowns who have caused the tent to ring with the only honest laughter that one is forced to give vent to. Now there comes the convincing proof that this most pessimistic individual is absolutely wrong, for if you can find in a long week’s journey a greater company of clever clowns than that which entertained the vast audience last night, he will be an individual whose sense of humor needs the services of a dentist with laughing gas to give away. The stunts of these chaps—and there were forty of them—are well worth the price of admission.

“Probably the most novel act the program presents is the remarkable wire performance of the three Holloways. One of the trio, a young woman, turns handspins upon a slender steel cord, suspended from a steel cable with as much grace and ease as though she were performing upon the stage floor. The performance of the Holloways concludes with a cake walk.

“The performance of three herds of trained elephants is unquestionably the greatest achievement in animal training ever presented under canvas. It is generally supposed that the elephant is a stubborn and awkward brute, but when the eyes bear witness that he can be taught to stand on his hind legs, on his hind feet, play musical organs, drums and mouth organs, he must be given a place with the horse and the dog, as far as intelligence goes.

“Among the most effective bareback riders in the history of the ring, as known to the American public, there with this show a woman whose daring and perfect execution demand universal admiration. Her various turns, her leaps, her appears in various rings and under the most trying circumstances, are the wonder of all who seek to secure for an attraction a performer of such merit.

“Not since the days of the first rider whose performance upon the ring horse is handed down now in circus history as being the greatest that could possibly be, has there been a woman who could in any way approach the performance. There is nothing that would indicate in connection with her act that she was done otherwise than an ordinary turn, and yet there is that which comes only with a born rider.

John O’Brien’s great creation in the arena feature in which he controls sixty-one horses in an ordinary circus ring is a feature that is remembered, and in no other aggregation can there be found the faintest intimation of duplication. In this act Mr. O’Brien, of course, is the controlling influence, but aside from that he later appears in the saddle on Goldoust, who is probably the most perfectly educated horse ever exhibited.

To try to enumerate the features of the great program in detail would necessitate the using of so much space that what is to be referred to must be passed over with but a few words of comment. Albert Crandall with his wonderful act upon his mule Thunderbolt is not a new feature to Boston, and yet he is as great an attraction as any the Ringling Brothers present. Then there is Art Alvar, who is exceedingly funny in his bungling of such a program as he can judge of.

The engagement is announced of Miss Mary Wille of Mount Eden and William R. Stutz, son of Mr. and Mrs. Carl Stutz of Oakland.

The Kappa Alpha Theta Sorority of the University of California has issued informal invitations for a small dance for Saturday evening.

Miss Michel Wood has arrived safely at Manila. She enjoyed a pleasant voyage and a stopover of three days at Horselie.

soon or late, when the stomach and digestive and nutritive system begin to fail. It must be so. Food is the body’s life. But food must be digested, before it can nourish the body. It is not what we eat but what we digest that feeds us. Don’t neglect the first warnings of stomach trouble. The timely use of Dr. Pierce’s Golden Medical Discovery, which is a medicine for the cure of diseases of the stomach and organs of digestion and nutrition will in ninety-eight cases out of a hundred result in a permanent cure. The percentage of cures is based on actual figures and facts, recorded in the treatment of hundreds of thousands of sick people. “The Discovery” always helps. It almost always cures.

“I was troubled with indigestion for about two years,” writes Wm. Bowler, Esq., of Julian Latch Co., Idaho. “I tried different doctors and remedies but to no avail, until I wrote to you and you told me what to do. I suffered with a pain in the abdomen and I did not think that it would kill me. Now I am all right and have not had that tired feeling that I used to have. Five bottles of Dr. Pierce’s Golden Medical Discovery and two vials of his ‘Pleasant Pellets’ cured me.”

WINTERS MUST SERVE HIS TERM.

His Parole Story Cannot be Carried Out Under the Law.

In an interview in the Examiner today Jack Winters, the gold thief, says he expects to be paroled in eighteen months and given \$50,000. He says this promise was made to him.

“No importance can be attached to Winters’ assertion that he is to be paroled in a year or eighteen months,” said a former State Prison officer today. “Paroles are not handed out in that way. In fact, they are difficult to get and are only granted after careful investigation.

“Winters seems to have entirely overlooked the conditions under which paroles are granted. The Prison Directors alone have power to parole convicts confined in the State Prison. This power is limited only by the provisions of the statute and is not shared in by the Governor, in whom lies the pardoning power. Under the law it requires the affirmative votes of four of the five Directors to grant a parole. It is also a rule that a prisoner must have served at least one-half the sentence imposed upon him before he is entitled to the benefit of the parole law. His rule has been varied from time to time, but only under extraordinary circumstances.

“Deducting credits for good behavior, according to the provisions of the Good-will act, Winters will have to serve nine years and five months to complete his fifteen years’ sentence. Under the rules which govern the Board of Prison Directors he will have to serve something like five years before he is eligible to parole. Then he must have a record of good behavior behind him.

“It is absurd to presume that in advance of prosecution and conviction detectives and reward hunters can pledge the Prison Directors to any bargain they may make with a criminal. Such things cannot be done, and all previous attempts to induce the Directors to ratify such bargains have utterly failed. In this instance it is quite likely that the local officials and the managers of the Selby Smelting Works fulfilled all the promises made to Winters by anyone having authority when they appealed to Judge Wells for clemency.

“As was seen, however, it is the Judge and not the arresting officer who imposes the sentence. The alleged promise of parole was only developed after Judge Wells had given Winters the full extent of the law. It is safe to say that no such promise was ever made

LEFT THE CITY TO AVOID APPEARING IN COURT.

West Oakland Woman Did Not Want
to Appear in the James
Keating Case.

The defense in the case of James Keating, on trial for assault upon Martha McDavid, was commenced today. An attempt will be made to establish an alibi. Evidence will be introduced to prove that Keating was at the home of William Eden at the time the alleged crime was committed.

The prosecution was compelled to close its case without offering the testimony of Mrs. Laura Bradbury, who owns a notion store at Sixteenth and Kirkham streets, where the crime is alleged to have been committed. Several times Sheriff Rogers' deputies attempted to serve Mrs. Bradbury with a subpoena requiring her attendance as a witness. Whenever she saw a deputy approaching, however, she would lock the front door of her store and retire to the rear. After a number of attempts had been made to serve the subpoena, Deputy Sheriff Boyer finally succeeded in gaining an entrance to the store. At that time he started to read the terms of the subpoena, telling her she was wanted as a witness. She would not look at the subpoena. When Boyer made his return, Judge Ellsworth held that Mrs. Bradbury had not been legally summoned, inasmuch as she had not been actually served with a copy of the subpoena. Boyer stated that Mrs. Bradbury had subsequently moved to San Francisco to avoid service of the subpoena. The prosecution decided to close its case without having her testify.

MADE ATTACK ON HER BENEFACTRESS.

Mrs. Dagmar Martin, a widow aged 45 years, was committed to the Napa Insane Asylum today by Judge Melvin. Several months ago Mrs. Martin was taken into custody by police Officer Sherry because she persisted in riding back and forth on the narrow gauge train without getting off. At that time Mrs. A. Lund of 1206 Franklin street took charge of the woman and has since been caring for her. Yesterday Mrs. Martin attacked Mrs. Lund and threatened to kill her with a hammer. Mrs. Lund called in the police and had her assailant arrested. She was examined by Drs. Wilcox and Rucker.

SECURES A FORTUNE.

Miss Pearl Tinker of this city, whose stage name is Pearl Evelyn, has inherited a small fortune from her father, who was separated from his wife a few years ago. She has built a home at Harrison, New York, and is living there with her mother. Recently Miss Tinker made an objection to another actress using her stage name of Pearl Evelyn.

RAN INTO THE BERKELEY TRAIN.

HAZING AT THE UNIVERSITY.

Exciting Runaway in College Town and Narrow Escape of the Driver.

BERKELEY, Aug. 22.—The crashing of Cavan and Day's lumber wagon into the local train as the latter pulled into Berryman station at 10:25, and the narrow escape from death of the horses and driver, Andrew Peterson, furnished considerable excitement at North Berkeley this morning. The runaway started on the heavy Vine street grade, the breaking of a bolt being the cause.

A large number of persons witnessed the spectacular dash of the horses as they ran toward the incoming train. Fortunately the train crossed the grade first, the animals dashing against the sides of the cars. Peterson heroically clung to the reins until he was dislodged, the wagon against an electric light pole. They continued their course down Shattuck avenue, being finally captured at Berkeley station. Peterson sustained numerous severe bruises.

WILL TAG U.C. GUESTS.

BERKELEY, Aug. 22.—A unique feature of the joint reception of the Y. M. C. A. and the Y. W. C. A. to the Freshman Class tomorrow evening will be the "tagging" of the invited guests. Instead of formally introducing the intrants, the hosts and hostesses will label them with their names.

The affair will take place at Stiles' Hall at 8 o'clock.

COUNTY INFIRMARY.

HAYWARDS, Aug. 22.—Editor TRIBUNE: On a recent Sabbath I was a member of a party who went with a pastor of this place to hold services in the chapel at the Alameda County Infirmary for the benefit of the inmates.

It is the chapel to which I wish the attention of the people could be called. It is a low, simple, open building, capable of holding less than one-fourth of the inmates of the infirmary.

It is scantly furnished with shabby benches, which are uncomfortable, in the extreme.

The door is roughly patched and uncared for. Within the structure is a disgrace to the county.

Will not the people, if not the authorities, take sufficient interest in the poor whom ye may always with you to bring the animal, built of chaff here which would be worthy of the scorn of those who would carry the light of the Gospel to our indigents and one which would furnish some attraction to the latter?

Very sincerely,
CLIFFORD RAY.

RUNAWAY AT HAYWARDS.

HAYWARDS, Aug. 22.—Tuesday afternoon S. Radovich, who has been representing Castle Bros. in this place for some time, was in a very exciting runaway. Mr. Radovich was in a buggy and was driving a colt owned by Mr. Geary of this place. As he was passing through San Lorenzo the animal became frightened and ran for several blocks before the young man could get him under control.

When the frightened horse was finally stopped, it was found that his legs were badly cut and the buggy broken in several places. The horse was in very fine animal, but it is no doubt ruined after Tuesday's performance. Mr. Radovich does not know what frightened the horse and did all in his power to save the animal.

HAYWARDS ENTERTAINMENT.

HAYWARDS, Aug. 22.—Tomorrow night an entertainment will be given for the benefit of the Presbyterian Sunday school of this place. The concert will be given by Miss Edith Jackson, who will be assisted by W. B. Ricker, violinist; W. L. Girard, basso; W. E. Craycroft, tenor; Miss Jessie Foster, lyric soprano, and Mrs. Grace Partridge Hayes, accompanist.

The affair will take place at the Haywards Opera House and promises to be a great success. The ladies will do all in their power to assist Miss Jackson with her program and a large house is expected.

RUPPRICT CANNOT GO.

HAYWARDS, Aug. 22.—Chas. Ruppricht, who has been preparing for a number of weeks to take a trip to the upper forks of the Eel River, has been sadly disappointed. Owing to his being required at the office it will be impossible for him to take the much desired trip.

HOSE CART REPAIRED.

HAYWARDS, Aug. 22.—The hose cart is again back at the old stand, after undergoing a number of repairs after its wild trip down B street. The cart looks as if it were new and is now as good as ever.

START FOR THE EAST.

HAYWARDS, Aug. 22.—Mrs. J. B. Parsons, her brother and his wife started yesterday for a trip through the East.

ELMHURST HUNTERS.

ELMHURST, Aug. 22.—The party of young fellows who left here on a hunting trip a few weeks ago have been heard from. They report an abundance of small game, but say that the large game have all disappeared. The boys will return within a few days.

ELMHURST CAMPERS.

ELMHURST, Aug. 22.—A few campers are still left in the canyon back of town. The camping season is nearly over and the tents have dwindled down to but two.

RATTLER AT ELMHURST.

ELMHURST, Aug. 22.—Several days ago Joe Perry killed a large rattler near here. The snake was more than four feet long and was the possessor of seven rattlers and a button.

AN ELMHURST CONDUCTOR.

ELMHURST, Aug. 22.—Jos. Perry has secured a position as conductor on the Twenty-third avenue line of the Haywards electric railway. Perry is quite a young man to hold such a position.

GOLDEN GATE BAPTISTS.

There will be a social concert tomorrow night at Golden Gate Baptist Church.

JAP DEMANDS HIS RIGHTS.

Two Freshmen Are Put Through a Course of Strange Exercises.

BERKELEY, Aug. 22.—James Brady and O. Scott, freshmen this morning at the University, were mildly hazed at the University this morning by several members of the senior class.

A large number of students watched the upper classmen put the intrants through a series of comical stunts. The youths were measured for military suits by the seniors, who impersonated faculty members. They were marched about the campus and were made to debate upon leading topics of the day.

The fun was concluded by the rumor that several professors were on their way to stop the hazing.

FRUITVALE GIRL'S TRIP.

FRUITVALE, Aug. 22.—Miss Pearl McLean has gone on a trip to Nevada, where she will spend a few weeks' vacation. Miss McLean is the popular young Southern Pacific station agent at the local station.

HUNT'S HOUSE SETTLED.

FRUITVALE, Aug. 22.—E. E. Hunt's house is now off the road and over its foundation. Every one is pleased that the building is off the street, as it was a great hindrance to traffic.

IMPORTANT CHANGES IN POSTAL LAWS.

Rules Are Amended in Regard to the Mailing of Second-class Matter.

The following new orders have been received at the postoffice:

Some important changes in postal regulations have been made respecting newspapers. Postmasters are reminded that they may be held on their official bonds for revenue lost to the Department through improper application or faulty administration of any of the laws or regulations relating to second-class matter.

The amended sections state that only publications which are devoted primarily to the dissemination of current events or miscellaneous literary matter or both will be admissible to the second class. Publications having the essential or distinguishing features of books will be excluded.

A legitimate list of subscribers, upon which entry is based, must be founded on the value of the publication as a news or literary journal, and must approximately equal fifty per cent of the number of copies issued and circulated. All subscriptions induced by premiums, chances to win prizes or other consideration to the subscriber in effect reducing the subscription price to a rate apparently nominal, will be held to be not legitimate within the meaning of the statute.

It should be understood that the excess of copies printed of any publication (fifty per cent of the issue) over the number necessary to supply the legitimate list of subscribers may be used as sample copies for the purpose of inducing new subscribers or advertising paragraphs; but all sample copies must be properly marked on the exposed face of the publication. Sample copy.

News agents' right in mailing second class matter:

News agents or those engaged in the sale of newspapers and periodicals will have one or two problems to encounter in the transaction of their business in the future.

Hereafter, it will be a special privilege granted by the department to permit news agents to return all unsold copies of papers and periodicals to news agents, at the round price of postage; but the abuse has become so profligate that measures have been taken to remedy the imposition.

Hereafter, news agents must stamp their return unsold matter at the rate of one cent for each four ounces.

He must furnish the postmaster satisfactory evidence that the publications offered are entitled to the round price, and have been duly entered at the office of the postmaster, or be sent to actual subscribers or to other news agents for the purpose of sale.

Satisfactory evidence must also be furnished that the persons to whom the bulk packages are sent from a news agency are also news agents. The addresses upon bulk packages sent to or from a news agency to a news agent should show that the addressees are news agents.

A formal application for the privilege to act as news agents must be made on blank form 3501-c, which will be furnished by the postmaster at the proposed office of mailing.

PIONEER REAL ESTATE.

MAN PASSES AWAY.

James Macdonald is Suddenly Stricken at His Home on Eighth Street.

At an early hour this morning James Macdonald, one of the best known real estate dealers of this city, passed away in his apartments, corner of Clay and Eighth streets, death being caused by heart failure brought on by stomach trouble.

About two months ago he began to fail, but it was not until yesterday afternoon at 3 o'clock that serious symptoms set in. At that time he was stricken in his office at 475 Tenth street. Dr. John Kitchings was summoned and everything was done to restore vitality.

Two years ago Mr. Macdonald came from Detroit, which he engaged in business here. His wife at present is in the East, where the deceased has two sons, who are engaged in the lumber business. WILL GREET THEIR PASTOR.

Wants to Attend School in Alameda Without Paying Fees.

ALAMEDA, Aug. 22.—With the application of Frank Lee, a Japanese boy, for admission to the public school without paying tuition, an argument arose at the last meeting of the Board of Education which was finally left to a committee to look into and decide.

In his application he stated that he was a native of Alameda and a voter, and thought that such would entitle him to the same schooling as other citizens could secure without pay.

The matter will in all probability be settled at the next meeting of the Board in two weeks.

STRIKERS WILL FILE SUITS.

Declare That the Steel Corporation Has Violated the Law.

PITTSBURG, Aug. 22.—There was much excitement in McKeesport last night, especially about the Dennison Tin Plate Works. Several hundred strikers assembled about the plant to thwart any attempt to introduce non-union men which was expected to take place during the night.

There was a report circulated that the works would resume today and the strikers kept up their vigilance until daylight this morning, but no non-union men were taken into the works and all is quiet there now. However, three furnaces were lighted yesterday and everything points to an early resumption of operations.

The plant is the pioneer in the tin plate industry in the United States and when running full employs about 500 men.

There was a report circulated that the strikers would enter suits against the operating companies of the United States Steel Corporation charging violation of the Pennsylvania law respecting the discharge of union labor, it is denied by Wm. J. Brennan, solicitor for the workers' organization, who said that the Association will not seek to end the strike by litigation or attack the legality of the United States Steel Corporation in the court.

Notices have been posted at the National Tube Works, McKeesport, requesting the strikers to call at the company's office tomorrow and Saturday and receive their money.

The strikers are guessing as to what the move made by the company means. An official of the Tube Works made the statement that the company was receiving letters from all over the country from skilled workmen making application for positions. It was reported at McKeesport that the National Tube Company has engaged a new employee when he calls for his money whether he wants to return to work, and if enough men signify their intention to return, the mill will be started Monday, but the story could not be confirmed at the company's office.

The tires in the bar mill of the Painter Plant were lighted this morning and preparations made to start the mill. According to Manager Harper, many of the old men are back at work and more are coming in each day. He expects to have the entire plant running next week.

FOUGHT THE POLICE IN THE CITY PRISON.

Mrs. Donohue Disturbs Entertainment and Receives Black Eye From Officers.

Patrolmen Lynch and Turner were called on to forcibly eject a talkative and boisterous woman, Mrs. Annie Donohue, from the Macdonough Theater last night during the course of an entertainment. In order to get her out of the theater it was necessary for the two policemen to carry her bodily. She had insisted on occupying various seats not her own, and talking to anyone within earshot.

Before she could be quieted in jail she displayed such marked pugnacity that it required the combined efforts of Jailer Phillips and Captain Peterson to subdue her.

In the melee the woman received a black eye, which soon became the most noticeable feature of her face.
